

**AMENDMENTS TO THE SPECIFICATION:**

Please cancel the current Abstract and replace it with the following new  
Abstract:

A stack of absorbent articles includes at least a first absorbent article and a second absorbent article adjacent in the stack, each article being individually wrapped in a wrapping cover with a container part and a lid part releasably attached to the outside of the container part. The lid part on the second absorbent article is attached to the wrapping cover of the first absorbent article by a releasable attachment which is stronger than the attachment between the lid part and the container part on the wrapping cover of the second absorbent article.
